# Business Overview

## Introduction

Country Scrap Metal & Skip Bins is a family & locally owned and operated regional business specialising in scrap metal recycling and skip bin hire. The company delivers reliable, cost-effective and environmentally responsible waste management solutions across residential, commercial, industrial, construction, demolition and agricultural sectors. With strong regional knowledge and a hands-on operational approach, Country Scrap Metal & Skip Bins supports projects where responsiveness, flexibility and dependable service are essential.

**ABN:** 70 667 184 590

**Company Name:** COUNTRY SCRAP METAL & SKIP BINS PTY LTD

**Phone:** (02) 6372 1322

**Base:** Mudgee, NSW

**Service Regions:** Central West NSW & Regional NSW

# Services & Capability

## KEY SERVICES

- Scrap metal collection and recycling (ferrous and non-ferrous)
- Construction and demolition metal waste removal
- Collection of redundant machinery, plant and equipment
- Skip bin hire
- Site clean-ups and ongoing waste management programs
- Segregated waste solutions to maximise recycling outcomes

## CAPABILITY TABLE

Service Area	Capability
Scrap Metal Recycling	Collection, sorting and recycling of ferrous and non-ferrous metals. All material recycled within New South Wales.
Construction & Demolition	Removal of metal waste, site offcuts and demolition materials
Skip Bin Hire	Range of bin sizes for residential, commercial and industrial use
Waste Stream Management	Separation of recyclable and general waste to reduce landfill
Plant & Equipment Removal	Safe removal of redundant machinery and heavy metal items
Regional & Remote Servicing	Reliable coverage beyond metropolitan areas

# Project Experiences

Country Scrap Metal & Skip Bins has experience supporting a broad range of projects across the Central West region, including:

- **Construction Sites** – Ongoing skip bin supply, metal offcut removal and site clean-ups
- **Demolition Projects** – Collection and recycling of structural steel and metal debris
- **Industrial & Commercial Facilities** – Scrap metal removal and scheduled waste services
- **Mining & Heavy Industries** – Removal and recycling of heavy steel, machinery scrap, and industrial components, along with on-site cutting, loading, and bulk metal recovery services.
- **Rural & Farming** – Farm cleanups, old equipment removal, fencing scrap, bins for property jobs
- **Renewable Energy Projects** – Scrap metal recovery, site clean-ups and skip bin services for solar farms, wind farms and battery energy storage facilities, including removal of steel offcuts, cabling waste, mounting frames and construction debris during installation and decommissioning phases

# The Organisation.

## EDWARD ELIAS

### MANAGING DIRECTOR

As Managing Director of Country Scrap Metal & Skip Bins, overseeing the strategic direction and overall performance of the business. As a partner in the company's success, he provides leadership and commercial oversight, ensuring sustainable growth, strong client relationships, and high operational standards across all services with over 30 years experience.

## ELIAS ELIAS

### OPERATIONS MANAGER

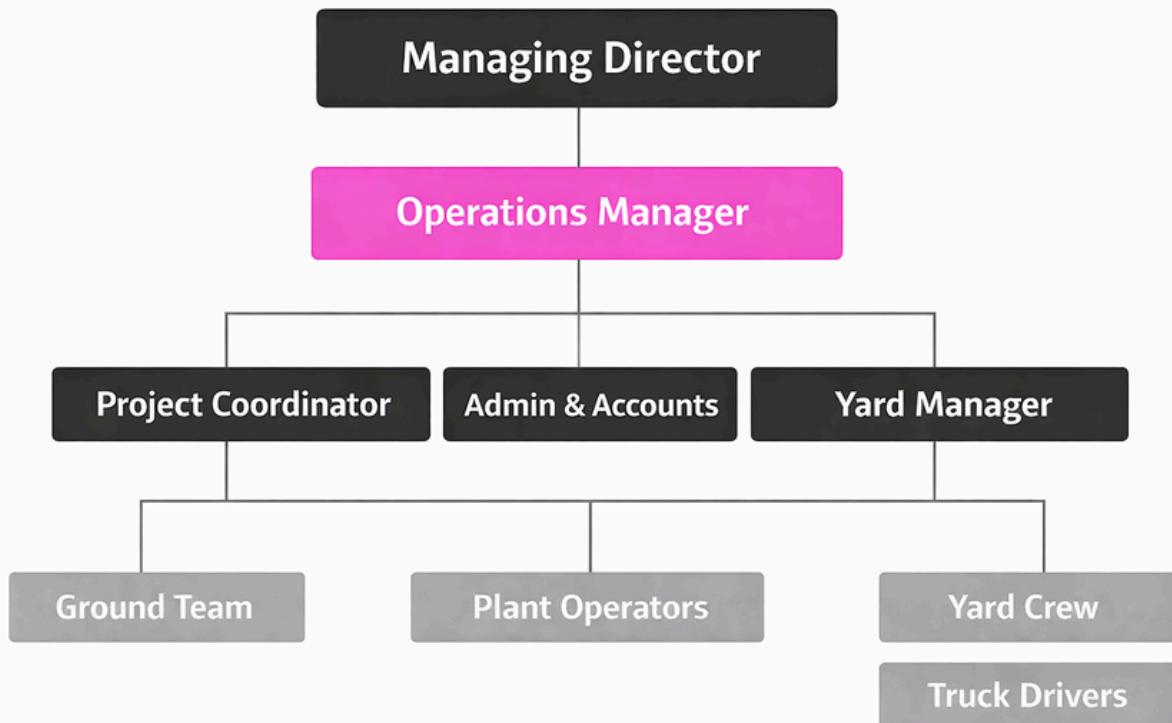

As Operations Manager at Country Scrap Metal & Skip Bins, bringing extensive experience across construction, civil works, masonry, and the scrap metal trade. He oversees operational delivery, site logistics, and safety compliance, while building strong client relationships and coordinating the company's involvement in renewable energy projects, ensuring efficient, high-quality service across the Central West region.

## BIANCA REDDY-ELIAS

### PROJECT COORDINATOR

Bianca brings over five years of construction industry experience, overseeing day-to-day operations across scrap metal recycling and skip bin services. They coordinate logistics, site services, and client requirements to ensure projects are delivered safely, on time, and within scope across the Central West region, supporting construction, industrial, agricultural, and renewable energy projects.

# Our Team...

## What Sets Us Apart

- Locally owned and operated with strong regional expertise
- Hands-on management and direct communication
- Rapid response times and flexible scheduling
- Tailored solutions rather than one-size-fits-all services
- Strong focus on recycling and sustainability outcomes
- Competitive pricing supported by efficient local operations
- Unlike large metropolitan providers, Country Scrap Metal & Skip Bins offers personalised service, practical problem-solving and the ability to adapt quickly to changing site conditions.

# Commitment to Clients

**Country Scrap Metal & Skip Bins is committed to  
delivering:**

- Reliable and consistent service
- Clear communication and transparency
- Safe, compliant and environmentally responsible outcomes
- Long-term partnerships built on trust and performance

The business has established a strong reputation as a dependable waste and recycling partner for regional projects and nominated work packages.

# Facilities & Equipment

- Dedicated scrap metal **processing and storage yard**
- Infrastructure for sorting and separating metal types
- **Fleet of trucks** for scrap metal collection and skip bin transport
- Wide **range of skip bins** to suit varied project sizes
- **Lifting and loading equipment** for heavy and oversized materials
- Regularly serviced, well-maintained vehicles and plant

Asset	Purpose
Scrap Metal Yard	Secure storage and processing of recyclable metals. Cutting and processing equipment
Transport Fleet	Efficient collection and delivery across regional areas
Skip Bin Inventory	Flexible waste solutions for multiple project scales
Loading Plant Equipment	Safe handling of heavy and bulky materials (forklifts, loaders, excavators)
Safety Systems	Compliance with WHS and transport requirements

MUDGEES 2580**

# **Safety, Compliance & Environmental Management**

Country Scrap Metal & Skip Bins operates with a strong focus on safety, compliance, and environmental responsibility, in line with Australian legislation and industry best practice. Our operations are conducted in accordance with relevant Commonwealth and NSW laws, including Work Health and Safety (WHS) legislation, council compliance, Licensing and permits, Environmental Protection regulations, and waste transport and tracking requirements.

## **Key commitments include:**

- Safe handling, transport, and processing of materials in accordance with WHS laws and Codes of Practice
  - Site-aware operators experienced in active construction, industrial, and civil worksites
  - Compliance with applicable Australian Standards and NSW environmental and waste regulations
  - Responsible waste segregation, maximising recycling and landfill diversion
  - Environmentally sound storage and processing of scrap and recyclable materials
  - Supporting client sustainability, compliance, and reporting requirements
  - Continuous improvement in safety performance, environmental outcomes, and regulatory compliance

This approach ensures our services are delivered safely, legally, and sustainably while meeting the expectations of clients, regulators, and the broader community.

# Marketing Plan.

Country Scrap Metal & Skip Bins uses a targeted, professional marketing approach to build strong brand recognition, promote sustainability, and engage key regional industries.

Through consistent digital presence, local partnerships, and clear messaging,

## PRODUCT

- **Scrap metal collection** and recycling (ferrous and non-ferrous).
- Skip bin hire for construction, demolition, industrial, and residential projects.
- On-site cutting, loading, and removal of heavy steel and infrastructure scrap.
- **Waste segregation** and recycling support to maximise landfill diversion.
- **Services** tailored for construction, agriculture, industrial sites, and renewable energy projects.

## PRICE

- Competitive and transparent pricing for skip bin hire and scrap metal services.
- Flexible pricing models for long-term contracts and large projects.
- Market-based scrap metal buy-back rates.
- **Volume discounts** and project-based pricing for construction and renewable energy clients.
- Clear quoting with **no hidden fees** to build trust and long-term client relationships.

## PROMOTION

- Maintain an active presence on social media showcasing projects, recycling outcomes, and community involvement.
- **Promote sustainability** messaging like “Metal is not rubbish” to encourage recycling over landfill.
- **Develop** brochures, profile booklets, and capability statements for construction, civil, and renewable energy clients.
- **Strengthen local visibility** through signage on trucks and bins, local ads, and community sponsorships.

## PLACE

- Based in Mudgee, servicing all of the Central West and Regional NSW.
- On-site scrap metal yard for drop-offs, processing, and recycling.
- Mobile service delivery to construction sites, farms, industrial facilities, and renewable energy projects.
- **Flexible logistics** using company trucks, bins, and plant to reach remote and regional locations.
